WEATHER FORECASTS IN WARSAW AND KRAKOW AREAS

Warsaw, Trybuna Ludu

1 November

Local fog or haze in the morning; considerable cloudiness in the western part of the country during the day, occasional rain likely. Quite fair in the east with gradually increasing cloudiness. Temperature range during the day from 8 to 14 degrees (all temperatures in centigrade). Moderate southerly winds.

2 November

Rather cloudy in the eastern part of the country. Increasing cloudiness in the southeast. Elsewhere, cloudy with light rain, moving northeast and covering eastern Poland.

3 November

Local fog during the night and in the morning. Generally cloudy with some light rain during the day. Light frost in the east during the night. Temperature range during the day from 7 to 12 degrees. In the east, southwesterly and northwesterly winds; elsewhere, light or moderate easterly winds.

4 November

Local fog in the morning, followed by considerable cloudiness and some rain during the day. Locally quite clear in the south and west with possible light frost toward morning. Highest temperature during the day from 8 to 10 degrees. Light southerly and westerly winds.

8 November

Generally cloudy with some rain, particularly in the northwest. Light frost during the night in eastern Poland. Temperature during the day from 5 degrees in the north to 11 in the south. Moderate or quite strong easterly and southerly winds.

9 November

Haze in the north in the morning and generally cloudy during the day elsewhere. Clearing locally with possible light rain in the west during the late hours. Light frost during the night in the Suwalki area. Temperature range during the day from 7 degrees in the northeast to 15 degrees in the southwest. Moderate and occasionally stronger southeasterly and southerly winds.

11 November

Some fog during the night and in the morning. Considerable cloudiness with light rain in the northern part of the country during the day. Elsewhere cloudy and quite clear locally. Light intermittent frost during the night, especially in the uplands. Temperature range during the day from 5 degrees in the northeast to 16 in the south. Variable easterly winds, stronger in the north.

12 November

Some fog or haze in the morning. Considerable cloudiness generally during the day, with possible drizzle or light snow in the northeast; clearing in the south. Gradual fall in temperature to freezing in the northeast. Temperature range from -4 degrees at Suwalki to about 18 degrees in the southwest.

14 November

Quite clear in the southeastern half of the country; considerable cloudiness and rain elsewhere. Possible local fog. Highest temperature about 16 degrees in the south, cooler in the west and north. Light or moderate southerly and southwesterly winds.

15 November

Considerable cloudiness with local rain. Temperature range from 3 degrees in the north to 10 degrees in the south. Prevailing moderate westerly winds.

16 November

Generally cloudy with light rain in the southern part of the country. Elsewhere, generally cloudy with occasional local light rain likely. Some light frost during the night, especially in the uplands and northern half of the country. Temperature range during the day from -2 degrees at Suwalki to 6 degrees in the south. Light or moderate northerly winds.

18 November

Generally cloudy and gradually clearing. Considerable cloudiness with passing local rain, probably clearing in the northern half of the country. Local fog during the night with probable frost in the eastern part of the country. Temperature range from 6 degrees in the northeast to 13 degrees in the south. Light or moderate southerly and southwesterly winds.

19 November

Local fog in the morning, generally cloudy but mostly clear locally during the day. Light rain later in the day in the west. Some light frost during the night. Temperature range during the day from 6 degrees in the east to 12 degrees in the west.

20 November

Some cloudiness or haze in the morning; mostly fair during the day in the southeastern part of the country and possible light rain in the northwest. Local light frost during the night in the northeast. Temperature range during the day from 6 degrees in the north to 15 degrees in the south. Light or moderate easterly and southerly winds.

21 November

Local haze or fog in the morning; mostly clear during the day. Possible light rain in the west. Temperature during the night near zero, during the day from 0 degrees in the northeast to 15 degrees in the south. Light southeasterly winds.

Krakow, Dziennik Polski (Compiled by State Hydrological and Meteorological Institute, Krakow.)

30 October

Generally fair with local fog in the morning hours. Temperature range from 10 to 12 degrees, and zero to 5 degrees in the night. Local light frost. Light southerly winds.

31 October

Haze in the morning. Light frost during the night, followed by fair weather. Temperature during the day will reach 14 degrees and drop to near zero degrees high in the mountains. Light winds; strong southerly winds with sudden gusts high in the mountains.

1 November

Variable cloudiness but generally quite fair following haze in the morning hours. Highest temperature during the day 14 degrees, light frost during the night. Temperature high in the mountains from 2 degrees to -5.

2 November

Mostly cloudy in the south with some rain, particularly in the west. Highest temperature in the uplands during the day will be 13 degrees, during the night from zero to 4 degrees. Temperature in the mountains near zero. Light and moderate winds in the uplands; prevailing strong southerly winds in the mountains.

3 November

In the morning, cloudy and foggy with light rain or drizzle, locally clearing intermittently. Highest temperature during the day 12 degrees, during the night from zero to 5 degrees. Light southwesterly winds.

4 November

Cloudiness and fog in the morning with rain and drizzle and snow high in the mountains. Gradually clearing during the day. Highest temperature during the day will be 9 degrees. Temperature high in the mountains from zero to -6 degrees. Moderate winds, with strong and sudden southerly and westerly in the mountains.

6 November

Cloudiness with some haze, gradually clearing during the day. Highest temperature during the day will be 10 degrees; light frost during the night. Temperature in the mountains from -2 to -7 degrees. Light, moderate north-easterly winds.

7 November

Cloudiness and fog in the morning, possibly clearing during the day. Temperature range during the day from 3 to 8 degrees; during the night zero to about -3 degrees with local light frost. Light winds, intermittently moderate easterly and southeasterly.

8 November

Cloudiness and fog in the morning, clearing during the day in the east. Rain moving in from the western part of the country. Highest temperature during the day 9 degrees, high in the mountains from 2 to -5 degrees. Moderate winds, strong and sudden in the mountains.

9 November

Variable cloudiness with local haze and fog during the morning hours. Mostly cloudy with light rain likely. Highest temperature in the uplands during the day will be 17 degrees, during the night near 5 degrees. The temperature range high in the mountains will be from zero to near 5 degrees. Light, moderate winds in the uplands; strong southerly winds in the mountains.
